

VOLUME IV.

EDMONTON BULLETIN MONDAY, APRIL 1, 1907.

NUMBER 261.

AGREEMENT SIGNED TO-DAY

Both Operators and Miners Consent This Will Result This Afternoon

Calgary, March 31.—The coal companies adjourned late last night, and will meet again at 9 o'clock this morning to go over the work and prepare a report for the general convention, which is meeting at 10 today. Both parties say the prospect is bright for signing of the agreement this afternoon. No contracts will be signed for lignite camps. It is said the internal question pertaining to local camps which cannot be settled by convention, will be referred to committee of operators and miners of this camp.

ORILLIA GURATE GETS GOOD APPOINTMENT

(Canadian Associated Press Despatch) St. John, N.B., March 31.—Rev. R. A. Armstrong, curate of St. James Church of England, Ontario, has been chosen rector of Trinity Church, principal church of the denomination in St. John, in succession to Right Rev. A. Richardson, who resigned on being chosen coadjutor bishop of Quebec and removing to Fredericton.

CITY DETECTIVE RESIGNS

One Constable Stewart, who has for some months been acting as plain clothes detective in connection with the city police force, has resigned to accept a position as guard at the St. Michael's penitentiary. Detective Stewart, until last January was with the mounted police at Calgary, and was a principal in the capture of Bill Minto, and his gang of train robbers, at Kamloops. Since his retirement from the R.N.W.M.P., he has done good work in crime-hunting in Edmonton.

NEW GOLD STORAGE WAREHOUSE

Williamson Bros. have taken out a permit for a gold storage warehouse to be erected at their slaughter house on Edmonton street.

It will be 40 feet high, and will cost \$5,000. There will be a concrete basement. The contractor is E. Kidd, and the work will be started at once.

THROWN FROM CARRIAGE

Mr. Harry Graham, of Calgary, son of James B. Graham, of Edmonton, was thrown from a carriage whilst out driving with his sister, and had his jaw broken. The injured man was taken to the public hospital, where he is being treated. Mr. Graham had planned to return to Calgary to-day, only being in Edmonton to spend an Easter holiday with his family.

55 Painters Refuse to Work

Demanded \$4 per 8 Hour Day Instead of \$3.25—Employers Say Demand is Too High

The larger part of the journeymen painters of the city refused to go to work this forenoon. There are about 50 men in all, and their demand is for four dollars for the eight hour day instead of \$3.25, which they have been receiving up to the present time. The date of the notice given by the men was from the first of April. The employers claim that the demand made is too high, and also that a large amount of work is over from last season, and they cannot possibly pay the increased price on last year's contracts.

GARMENT WORKERS RETURN TO WORK

(Canadian Associated Press Despatch) Boston, Mass., March 31.—At a meeting of the Garment Workers union today it was stated that of 3,000 men who went on strike last Monday for recognition of union, 1,600 had been returned to work under a new agreement, with the demands allowed.

WANT SHORT HAIR EQUALIZED.

P. S. Island Desires of Trade to Dominate Federal Government.

(Canadian Associated Press Despatch) Charlottetown, P.E.I., March 31.—All provincial boards of trade in convention request that the Dominion Government be requested to equalize the short hair trade system of transportation from points on the island to points on the mainland with the continuous hauls of other provinces. That the island be placed on the same basis as to imports and exports as the other provinces, and that passenger rates on government of subsidized steamships be lowered to the minimum rate now by rail charges by the Dominion system of railways. It was also resolved that a tunnel in the best means of compelling the terms of union in regard to continuous communication.

STOCK BLUMS AFFECTS AUTO SALES

(Canadian Associated Press Despatch) Montreal, March 31.—Orders given during winter for over twenty automobiles have been cancelled in Montreal alone, owing to losses in the recent slump in stocks.

MICHIGAN ELECTIONS.

(Canadian Associated Press Despatch) Grand Rapids, March 31.—Michigan will elect five state officials on Tuesday, including two justices of the Supreme Court and two officials of the state university. One member of the state board of education in the Michigan congressional district as successor to Wm. Alden Smith will be elected. There are two Republican candidates—W. J. Diez, chairman of State Republican Committee, and Hiram Russell, state senator.

CHICAGO MAYORALTY ELECTION THIS WEEK.

(Canadian Associated Press Despatch) Chicago, March 31.—Chicago will hold its municipal election on Tuesday of this week. The latest returns from Fred A. Busse, the postmaster, and the Republican for re-election is complicated by a referendum traction question. The campaign has been a bitter one.

CHEEK BOOK SAVED HIS LIFE.

(Canadian Associated Press Despatch) Ripon, Wis., March 31.—Mrs. W. H. Ogden, following the conviction of her husband for larceny of iron rods, was released from the Penitentiary at K. K. Hall in the court room, but the bullet was deflected by a cheek book, saving his life. She fired four other shots, three going into the neck and one striking Charles Chabou over the heart. The unfortunate man may die. Mrs. Ogden was arrested.

ANTICIPATED STRIKE IN NEW YORK.

(Canadian Associated Press Despatch) New York, March 31.—A general strike of painters is anticipated in New York City on Monday. Some of the contractors have refused the demands of the Brotherhood of Painters and the Associated Painters' Society for \$4 a day for plain painting and \$4.50 for decorative painters.

MR. MYMAN IN BETTER HEALTH.

(Canadian Associated Press Despatch) Ottawa, March 31.—Hon. Charles B. Myman, who left the country a fortnight ago for home via Los Angeles, has decided not to return to Canada for some little time. The Minister of Public Works is reported to be in much better health and spirits than at any time since he left Canada. He is accompanied by Mrs. Myman.

MAS FOR ASSASSINATED EDITOR.

(Canadian Associated Press Despatch) St. Petersburg, March 31.—A request was made to the Russian government to grant a pension to the widow of the late Mas, editor of the Russki Viedom, who was assassinated by a youth at Moscow, March 27. Many thousands of persons attended, among them the most prominent leaders of all the political parties, nearly one hundred members and ex-members of parliament and Peter and Paul Detachment.

TWO MONTHS TO REET.

King Edward and King Alfonso will Presumptive.

(Canadian Associated Press Despatch) Biarritz, March 31.—King Edward will leave Biarritz April 5 for Toulon, from whence he will proceed the following day on board the Royal for Calcutta to meet King Alfonso of Spain. The approaching meeting between the two monarchs has created considerable comment throughout Europe, although in official announcements it has been made that the meeting will not be of a political character. Every available Spanish warship will assemble at Cartagena to meet the British squadron of seventeen vessels, and a gala banquet of officers of both fleets will be given on the Spanish battleship Numancia. Dower Queen Christina, Premier Maure and the foreign and marine ministers will accompany King Alfonso.

DIED EN ROUTE TO HOSPITAL

Sad Case of Daughter of John Whitford, Trapper, Who Was Taken Ill Up North

The daughter of John Whitford, of Bull Lake, a bright young girl of eighteen years, died on Friday morning last in a tent on the Great coast, where, at the dying girl's request, the family came down from its north, had camped the day before.

Whitford, who is a half-breed trapper, moved his family last autumn to a northern lake for trapping. The daughter not long ago caught a severe cold, which developed rapidly into pneumonia. The family decided to bring the girl down to Edmonton to a hospital, but on Thursday evening, when they had arrived at the city's edge, the girl began her parents to cough when they were, so she left her father's tent, and was anxious to leave a clergyman called. The girl's request was complied with. Her death occurred on Friday morning, and the following day the body was taken out to Bull Lake for interment, beside a sister who died some time ago.

IMPERIAL BANK INCREASES DIVIDEND.

(Canadian Associated Press Despatch) Montreal, March 31.—Another Canadian bank has gone into the long list of increasing its dividend. Today it was announced that the Imperial Bank of Canada had put its stock on a basis of 10 per cent., and that a dividend of that rate had been declared. The Imperial Bank has been paying 10 per cent. dividends ever since 1901. In 1901 5 per cent. was paid and a bonus of 1 1/2 per cent. while the year previous the dividend was 1 1/2 per cent. and a bonus of 1 per cent. Previous to that the bank paid 8 per cent.

THE ENTERPRISE OF THE BULLETIN

Management has Secured Associated Press Despatches which will Place Paper on Same News Footing as Other Big Dailies in Canada

Recognizing the cosmopolitan character of the people who make up the population of the city of Edmonton, The Bulletin has arranged to secure the Canadian Associated Press Despatches. These despatches are the same as are published by the leading newspapers throughout Canada and the United States and cover completely the news of the world. They will serve to keep Edmonton and the people of the province apprised of the happenings of the world. By the enterprise of The Bulletin, in securing these despatches, Edmonton will be in daily touch with the outside world. It is not the intention of The Bulletin to sacrifice the news of the city and of the province in the publication of these despatches—decidedly not. The despatches will be put in an added feature to The Bulletin. The Bulletin has secured the exclusive right to use these despatches in Edmonton, and it lives to be appreciated by its readers. This new feature will place The Bulletin a penny better than the added interest with which the paper will be read will be more than compensated by the news it will bring. The news will cover the political, the religious, and in fact every aspect of world wide interest. And another not unimportant feature of the news will be that referring to the big sporting events of the world. The Bulletin, naturally, feels some little pride in being the first paper in Edmonton to secure this exclusive news service.

THE GREATEST 3 MONTHS

Building Permits Issued in First Quarter of 1907 Smash All Previous Records

Using records of previous years returns to fall before Edmonton's progressive march in 1907. Despite the cold weather of the past month, which was a great drawback to springing operations, the record for March has never been equalled in the history of the city. During the month the amount of the permits issued totalled \$123,547, as against \$105,918, the record of March, 1906.

The total for the first three months exceeds by many thousands of dollars the amount of permits issued for the same months of any previous three months in the history of the city. A notable fact is that this year all the permits with one exception have been for dwelling or other small buildings. The rub of big ones is expected next month, when the total will commence rapidly to approach the estimated \$5,000,000 for the year. The total number of permits in the three months of 1906 was 120, compared with 190 this year, and 83 last March, compared with 95 during the past month.

Following is a comparative statement of totals—

	1906.	1907.
January	31,416	51,126
February	34,500	57,720
March	100,918	123,547
Total	166,834	236,593

DROWNED HIMSELF AND HER TWO CHILDREN.

Jealousy Prompted Woman to destroy Herself and Dead.

(Canadian Associated Press Despatch) Dover, N.H., March 31.—Having learned their garments securely to her own, Mrs. Otto Britting carried her two children into Shongien Lake, where all three were drowned yesterday. The mother's body was in a floating position as though she had been lowered to place her head under water. Within her right arm her nine month old baby George was clasped to her breast, while her daughter Grace, three years old, was held firmly between the dead mother's knees. Mrs. Britting was 58 years old, and the second wife of her husband. She had three children from her earlier marriage. She is said to have been passionately fond of her children, and her act was regarded as a mental trouble due to jealousy of her husband's affection for her older children. With her own children she left home during the absence of her husband.

Mr. and Mrs. Barker, Newton Walker, Mr. Gordon and Master Walker, arrived at the King Edward yesterday from London, England. They will spend some weeks here and may become permanent residents.

WATERWAYS A GREAT FEATURE

In Anticipating Railways, Says J. J. Hill.

(Canadian Associated Press Despatch) New York, N.Y., March 31.—J. J. Hill, president of the Great Northern Railway, taking as a text the recent action of President Roosevelt in appointing a waterways commission, says that through the waterways of the country properly improved must come the much desired improvement in freight handling conditions. The country, he said, must look to its water ways for immediate relief of the freight pressure. Mr. Hill said: "There has been in the past a feeling among railroad men that water way development would be detrimental to railway interests. I do not think it would, and if the idea has not already widely disappeared it is in a fair way of doing so soon. We realize that we have created in the property of the country a condition that calls loudly for relief, and any means to that end would be welcome."

HAS THE WEST ENTHUSIASM

C. E. Usher, C.P.R. Passenger Traffic Manager for the West Gives Impressions

Mr. C. E. Usher, passenger traffic manager of the western line of the Canadian Pacific railway, is in the city to-day on his first official tour of inspection. The position which Mr. Usher fills and which was created last December, is a practical recognition of the rapid growth of the west. The C.P.R. had it necessary to decentralize the passenger business, which was growing beyond the compass of the Montreal office, and strengthen its organization in the west.

When he was appointed to the new position, it will be recalled, the business and professional men of Montreal, generally, at a "mammoth" banquet, expressed the cordial regard upon the loss of such an official, called by the shifting of the centre of interest to the west.

From this official tour of Mr. Usher from Winnipeg to the Pacific coast through the Crow's Nest and Kootenay districts, further improvements in the passenger service will result to keep the road in touch with the growing needs of the west.

Mr. Usher has specially caught the spirit of western enthusiasm. To a representative of the Bulletin, in reply to a query concerning his trip, he said:

"I have been surprised and delighted naturally by the evidences of progress and new development in the west. An easterner simply has to see the west for himself to thoroughly appreciate it. Once he has seen it he can understand the enthusiasm that seems to animate everyone in this part of Canada. "I have been filled with this enthusiasm myself. I only regret that circumstances did not call me here to the west years ago. "I read with a great deal of interest and satisfaction the Bulletin's interview on Saturday with Mr. Theodore Revillon. His remarks concerning the difficulty of leaving orders for goods filled in the east, and about the railway and their transportation difficulties were excellent."

Mr. Revillon represented the situation very fairly for both sides. An expression of opinion of that kind is good, and tends to promote better relations between the public and the railway.

"My impressions of Edmonton" the popular railroad man echoed the query with an approving smile: "There cannot be two opinions about Edmonton. It is a lively, bright city with signs of progress in every direction. The natural resources of the district and the city's situation assure it a great industrial future, as a distributing centre. It is undoubtedly building up to a great future."

Mr. Usher, whose love of outdoor life and interest in the executive administration of the Fish and Game associations in the east is well known, is sportsman, was asked if he had noted any active organization for the preservation of game in the west. He replied that the falling at all points where he had the opportunity of seeing was well known and sportsmanlike in favor of game preservation. At Fernie, B.C., they were taking steps to secure a large game preserve park in the Kootenay district, like the Algonquin park in North Ontario.

HARRIMAN'S REFUSAL TO ANSWER.

Certain Questions Before Interview of Commerce Commission Now Subject of Argument.

(Canadian Associated Press Despatch) Washington, March 31.—The Interstate Commerce Commission will listen to arguments by counsel for E. H. Harriman in Washington on Monday on the question whether or not the commission shall appeal to the courts to compel Mr. Harriman to answer certain questions affecting its management and control of the Pacific railroads—the Chicago and Alton and the Oregon Short line. At the hearing in New York several weeks ago, Mr. Harriman declined to answer several questions concerning his financial management. A recent case of Benjamin B. Green and John Grayson, charged with conspiracy against the United States Government, will be heard before the United States Circuit Court of Appeals at New Orleans on Monday.

POWELL STILL BLUFFING.

(Canadian Associated Press Despatch) St. John, N.B., March 31.—George W. Powell, M.P., passed through St. John on Saturday on his way to Montreal and Ottawa. He spoke of political scandal with aggressive confidence. He said he was ready for anything that might come and could back up all his assertions. Powell said when he reached Montreal he would begin suit against the Montreal Star for libel on account of an article concerning him which appeared in that journal a few days ago.

NO MORE KISSING OF BIBLE.

(Canadian Associated Press Despatch) Montreal, March 31.—Recorder Weir has adopted in his court a new way of swearing witnesses. There will be no more kissing of the Bible, and all the witnesses will have to do will be to put his hand on the book and swear that he will tell the truth. "There can be no sanitary reason, as the other way was suspected of transmitting microbes, the state of health of a witness sworn being not always known."

AEROPLANE FLEW SIXTY YARDS.

(Canadian Associated Press Despatch) Paris, March 31.—The trials of the D. La Grange aeroplane were conducted yesterday before a number of well-known aeronauts. They were most successful, the machine flying for a distance of sixty yards. M. Santos Dumont, who was present, highly congratulated his rivals on their success.

ONTARIO SPEAKER DYING.

(Canadian Associated Press Despatch) Toronto, March 31.—Speaker John of Ontario legislature is very low tonight at hospital and is not expected to last through the night.

Most satisfaction the Bulletin's interview on Saturday with Mr. Theodore Revillon. His remarks concerning the difficulty of leaving orders for goods filled in the east, and about the railway and their transportation difficulties were excellent.

Mr. Revillon represented the situation very fairly for both sides. An expression of opinion of that kind is good, and tends to promote better relations between the public and the railway.

"My impressions of Edmonton" the popular railroad man echoed the query with an approving smile: "There cannot be two opinions about Edmonton. It is a lively, bright city with signs of progress in every direction. The natural resources of the district and the city's situation assure it a great industrial future, as a distributing centre. It is undoubtedly building up to a great future."

Mr. Usher, whose love of outdoor life and interest in the executive administration of the Fish and Game associations in the east is well known, is sportsman, was asked if he had noted any active organization for the preservation of game in the west. He replied that the falling at all points where he had the opportunity of seeing was well known and sportsmanlike in favor of game preservation. At Fernie, B.C., they were taking steps to secure a large game preserve park in the Kootenay district, like the Algonquin park in North Ontario.

HARRY THAW IS MORE CHEERFUL

Went to Church Yesterday, and was With His Wife Throughout the Day

(Canadian Associated Press Despatch) New York, March 31.—Easter Sunday in the Thaw's visit made more cheerful by a visit from his wife, to whom had been granted a special permit to pass the afternoon with her husband. When Mrs. Thaw left she spoke for the first time since the tragedy last June to reporters:

"Harry grows more cheerful and satisfied with the way his affairs are progressing every day," she said. "Like all the rest of us, he is perfectly confident that the commission will find him sane, and that the trial will go on. It even talked today of being free. He sues, and he planned how he and I would dine together."

Thaw attended the Easter service conducted by Rev. R. B. Sanderson in the morning. None of his counsel visited him during the day. He will consult with his lawyers tomorrow as to the probable developments before the commission convenes at 10 o'clock Tuesday.

MURDERED SEVEN, THEN COMMITTED SUICIDE.

The Act of an Armenian Who Was Without a Name.

(Canadian Associated Press Despatch) Alexandria, Russian Armenia, March 31.—A series of brutal murders was perpetrated here to-day by a man named Kasparyan, who lately had been without work and was refused further board and lodging in the home of a married sister. Kasparyan, who was a native of Armenia, wounded his sister, killed her husband, wounded a nephew and niece, killed a neighbor, who answered their cries for help, and mortally wounded the wife and mother of a neighbor. Then he committed suicide.

MORGAN SPENDING HIS MILLIONS.

(Canadian Associated Press Despatch) Brussels, March 31.—It is currently reported that J. P. Morgan, of New York, has acquired for \$1,500,000 the unique collection of Van Der Porebo, comprising furniture, pictures, arms, brasses, ancient engravings and chimney pieces. The collection is installed in a sixteenth century Dutch house at Anderlecht, a replica of which will be constructed in New York state, under the supervision of Francois Malfait, the architect.

FUNERAL OF M. H. BOMERSET.

(Canadian Associated Press Despatch) Toronto, Ontario, March 31.—The funeral of M. H. Bomerset, agricultural editor of Mail and Empire was held to-day.

Big Increase In Customs Returns

For March 1907 More Than Double March 1906—Yearly Returns Show Large Increase Also

The Edmonton customs returns for March and also for the past nine months, indicate a big increase in the business of the Capital city. In both instances the returns have more than doubled those of the corresponding period of last year. In March, 1907, there was collected in customs duties \$259,774, as against \$120,500 in March, 1906, the amount being the largest in the history of the city, and showing an increase of \$159,274.

In the past nine months, ending March 31st, the end of the present fiscal year, which now closes on that date instead of June 30th, the total collected was \$1,524,537, as against \$657,477 for a corresponding period last year.

The total number of entries for the nine months up to March 31st, 1907, in contrast to 1,077 for the corresponding nine months last year.

A. G. Fiske, principal of the south ward custom, Calgary, spent Easter in the capital.

SPORTING NEWS

CITY FOOTBALL LEAGUE.

Association football is due to receive a great deal of attention in Edmonton this year or a bunch of well known enthusiasts on this sport will be greatly disappointed.

A city league it is expected will be the trick, and a meeting to organize the association is called for Friday night at 8 o'clock at the Alberta. Delegates are expected from the teams represented at the Good Friday conference, namely, Edmonton City club, All Saints and Caledonia, also from Strathcona and any other organization in the city which can furnish a fast eleven for the year.

Rules and regulations are being drafted for consideration at Friday's organization session and it is important that all teams wishing to enter should have representatives present, so that a constitution long enough and broad enough for all purposes may be adopted.

FOOTBALL CLUB ORGANIZED.

At a well-attended meeting the Edmonton City Football club was reorganized for 1907 with the following officers:

Hon. President—T. M. Turnbull.
President—W. A. Griesbach.
Vice-President—T. F. S. Jackson.
2nd Vice-President—B. M. Giesbach.
Secretary—S. S. Short.
Treasurer—H. H. Robertson.
Manager—J. W. Dodds.

Executive—A. F. Ewing, W. J. Smith, G. B. O'Connor and J. G. Smith. Indications are that the club will be much stronger in every way than it was last season, and the city eleven will do its utmost to make the sport popular both with the spectator and players.

LACROSSE LOOKS GOOD.

Since the announcement was made that Hon. Dr. De Veler had succeeded in touching up Alberta's M.P.P.'s for \$5 each and that the \$25 thus raised, along with a donation by himself, would be spent in purchasing a cup to be presented to the club winning the lacrosse championship of this province, there has been considerable stir in lacrosse circles in different parts of Alberta.

At Lethbridge a committee is now at work drafting a constitution for what will be known as the Alberta Amateur Lacrosse Association. When the draft is completed, it will be submitted to Senator De Veler for his approval.

Then invitations will be sent to the lacrosse clubs of Alberta towns and cities to send delegates to a convention at Lethbridge to discuss the formation of an association. It is expected that Calgary, Edmonton, Medicine Hat, Wetaskinwin, Red Deer, Strathcona, High River, and other towns will send delegates. All clubs in Alberta will be eligible to join the league.

The proposed constitution has stringent provisions against professionalism and rough play, as it is the object of the promoters to have clean, gentlemanly lacrosse. The cup (which is a silver cup) will be presented to the winners of each series to play off for the Alberta Lacrosse cup, and the championship of the province.

LACROSSE.

The Canadian Lacrosse association has decided to give field captains and other try this year.

Orangeville won C. L. A. championships in 1897 and 1898 and expect to repeat their successes in 1907.

Lahore, the well-known Cornwall coach-keeper, is in receipt of an offer of engagement by the New Westminster, B. C. club.

Alex. Stafford, who has long been identified with lacrosse in Lethbridge states that lacrosse will be heard from in that city this season.

Cornwall professional lacrosse team last season was a major success. The club closed the year with a \$2,000 balance to the good. New grounds will be purchased this year.

All the Ottawa players have secured leave of absence from their employers in order to take in the Old Country trip. They leave in a few days and will be absent about two months.

The latest player to strike Edmonton is Bob McKinnon, who reached here from Detroit on Friday. He has played the game with a number of the crack teams in Western Ontario the past few years, and has a reputation as a strong defence man.

Another eastern lacrosse player who has designed on Edmonton is his partner, named him as Turner, who was with Arnprior intermediates in 1906. The Ottawa valley team is anxious to have him again this year, but latest reports indicate he already has his ticket purchased for Edmonton.

The annual meeting of the city lacrosse club will likely be held this week. From here it looks like a banner year for the game in Edmonton. About all the fast 1906 talent is here, and considerable new blood may be expected before the season opens. Strathcona lacrosse are quietly at work also, and it looks as if the game would have a great run across the river this year, too. They are trying to induce Kent, the hockey player who was here with Battledore, and who is also one of the good ones in the western lacrosse business. Kent is pretty certain to migrate, but it is just possible Edmonton may be his post office address are many weeks.

FOOTBALL.

The C. N. R. towns are all talking football just now and these places would furnish some good teams for the provincial league.

The Caledonians have not organized yet, but there is said to be some particularly fine players among the Scots and for the sake of national traditions they are sure to place a team in the league.

The annual meeting of the Saskatchewan football league will be held at Regina on Wednesday. Last year there were nineteen teams and the prospects are good for thirty-five this season.

Strathcona should be a big factor in the city league championship. The town has always been prominent in this sport and if only one team is entered from there it should be a winner.

Mayor Griesbach is getting a full share of the football honors. He is president of the Edmonton City club and vice-president of the All Saints eleven, and he can't possibly dodge some recognition if the city league is launched, to say nothing of the numerous minor clubs that crop up annually.

The annual meeting of the Alberta league which was fixed for Good Friday will be held here early this month. At the last minute urgent business affairs prevented both President Jackson of Innisfail, and Secretary Jackson of Ponoka, from attending, and it was too late to procure suitable substitutes.

Hillman Football club has been organized for the year. E. H. Riley, M.P.P., is president, and he is also providing the team with a good field for practice grounds. This team will play in Calgary's city league.

Calgary will have football matches galore this year from present appearances. Two leagues have already been organized—senior and city.

HOCKEY.

All the Ottawa rinks have closed for the season. Two Peterboro men have leased Dr. Veler's arena and will conduct a roller skating rink there.

Arthur Ross, owner of the Brandon team, is head of a western milling company. Tom Phillips of the Kenora is interested in a big lumber concern.

The city league affairs will be wound up at a meeting of the executive at the Dominion bank on Tuesday night at 7:30. The important business is to adopt the financial statement and arrange for a meeting or banquet to present the Tremblay medals to the champion intermediates.

The season in the High River district league was brought to a close on Friday. The Indian team from the Dunbow school won the championship and will have possession of the Carver silver cup this year.

Besides this each player gets a silver medal, donated by Mr. McKee of Okotoks.

D. L. Darroch, of Collingwood, who has held the presidency of the Ontario Hockey association for the past two years, is now a resident of Calgary, where he is going into business. Mr. Darroch helped greatly in making his former home a first rate hockey town and for the good of the game in Calgary it is to be hoped he will be as active in this line in the southern city.

Toronto will next year have a hockey rink that will provide a high grade hockey surface no matter what kind of weather prevails. The new shed will be called the Arena and will have an artificial ice-making plant—the first of its kind in Canada. The arena will be 305 by 80 feet. The building itself 303 by 100, and will seat 10,000. The stock company building the rink will also handle the professional hockey team which will be a fast one.

CITY LEAGUE MEDALS.

The medals donated by the real estate firm of Taylor & Morris for the team winning the championship in the city hockey league are now on exhibition in the window of Jackson's Jewellers. They are Edmonton made throughout, having been designed by the city.

Famous Geologists Report on Oil

What G.M. Dawson, one of Canada's Greatest Geologists says about it

READ THESE FACTS

The Canadian Government Report for the year 1897 on pages 22-23-24-25 describing the Pelican River well.

"The different strata, as encountered after this are set out in the subjoined log. I used some of the heavy petroleum or maltha that flowed from the well in raising steam, and it made an extremely good fuel." "If the hard slate stratum at 321-feet six inches had been pierced, a great flow of petroleum might, in my opinion, have been encountered, indeed it is altogether possible that at that depth we were within a few feet of a large body of Petroleum. Had it been struck while the flow of gas was in the unconquered condition, the result would have been disastrous, as there might have been no possible means of checking the flow. The flow of gas was so great that a cannon ball could not have been dropped down the pipe."

"355 feet a good deal of gas." "748-768 struck gas and some oil at 750 feet quite a strong flow of gas at this point. Heavy oil similar to that struck before but of a higher specific gravity came out with the cuttings in the sand pump. The heavy oil seems mixed all through the sandstone and shale at this depth and it looks as though the tar sands had been entered at about 740 feet."

"800-820. At 820 feet a tremendous flow of gas was struck which blew every drop of water out of the bore. The roar of gas could be heard for three miles or more. Soon it had completely dried the hole and was blowing a cloud of dust fifty feet in the air."

"820-821-6 inches Conglomerate mass of iron-pyrites nodules embedded in oil." "At 821-6 a very hard stratum of slate was encountered which we penetrated about three inches. We could get no water down the well on account of the strong flow of gas so we could make no further progress with the drill in this hard cutting. The danger to the men was so great that they refused to work longer over the bore. We then put the four and five eights inch casing down to the very bottom hoping to shut off the gas but failed to do so."

The Canadian Government Report for the year 1898 on page 29A says regarding conditions at Egg Lake:

"Tarry or pitchy matter is stated to be here first found in ploughing on the Northwest Quarter of Section Thirty Township Fifty-six, Range Twenty-five, West of the Fourth Meridian. Several small excavations were then made and veins or layers of hardened pitch and pitch saturated sands were found."

"A large amount of sand saturated with tar was lying beside this pit. We bailed the water out of this pit when the unstratified material with pebbles was found to extend down to a depth of eight feet and through it was running many veins of hardened pitch. Below this a coarse moderately even grained and apparently horizontally bedded sand is reached. THIS SAND IS SATURATED WITH TAR."

The well drilled near Egg Lake by H. L. Williams to a depth of 550 feet shows the formation there to be identical with the Pelican River well to the depth drilled excepting that it was necessary to drill 185 feet deeper to strike the first large body of gas. The Affidavits of P. S. Gaudette, N. Hittinger, J. S. Teffes and Avila Brissette, as follows:—I found gas escaping from said well in large quantities; that said gas when lighted would burn steadily with a flame."

The United States Government Report for the year 1902 says regarding oil near Edmonton. "The conditions are similar to the regions producing petroleum in California and will in all probability produce petroleum in quantities when there are sufficient facilities for transportation."

GAS AND OIL

WE HAVE THE GAS

We have, as is shown above, the very best indications for oil, in fact Mr. Dawson further states in his report for the year 1898 on page 31A: "Taking the proved existence of tarry petroleum at the Pelican and the indications of Egg Lake together we appear to have demonstration of the occurrence of such Hydrocarbons for a distance of over one hundred and fifty miles from and nearly at right angles to the direction of the natural outcrops of the 'tar sands' on the lower Athabasca."

We believe, and so do Canadian Government experts that we will strike oil

TENDER FOR SEED POTATOES.

The undersigned is prepared to receive tenders for the sale to the government of 5,000 bushels of seed potatoes to be delivered to the order of the undersigned on board cars at Battleford station (freight and other charges prepaid) not earlier than the 15th day of April, 1907, nor later than the 1st of May, 1907. Such potatoes must be of first quality, early varieties, not mixed, and properly bagged in sacks of ninety pounds net, ready for delivery.

Tenders will be received at the office of the undersigned until Monday, the 8th of April, 1907, at noon, and the successful tenderer will be required to deposit a marked cheque for 10 per cent, as guarantee for fulfilment of the contract.

Barbering and Shoeshining . . .

At the Cecil Hotel First-Class Work . .

MISSIONARY AUXILIARY ORGANIZE RELIEF FOR FAMINE ORPHANAGE.

The Woman's Foreign Missionary Auxiliary of the First Presbyterian Church, has arranged with Mrs. J. Fraser Campbell, of the Canadian Presbyterian mission, Rutland, C.T., to receive and forward orders for articles of drawn linen thread work done by the girls of the famine orphanage, supervised by the ladies of the staff. Orders for this work may be left with Mrs. Jaffray, 466 Ninth street (south of Victoria) on Monday and Tuesday afternoons and evenings, April 1st and 2nd.

Mrs. Jaffray will be pleased to show samples of linen designs and some completed work. The orders will be forwarded about the middle of April and received probably in October. It is requested as far as possible that cash accompany the order for the sake of the mission.

FIRE ALARM SYSTEM SHIPPED.

Intimation has been received at the city offices that the new fire alarm system has just been shipped from Montreal. In the ordinary course of freight transportation it will be here in about four weeks' time. Temporary fire alarm boxes will be at once set up where necessary and the batteries installed.

The complete installation of the system will not be finished for some months, however, as all the city line poles are being renewed, and it would be useless to place the wires on the poles that afterwards would be pulled down. A capable electrician is in view to superintend the construction work, during which time he will be attached to the electric department. Afterwards he will be allied with the fire department, and the maintenance of the alarms will also be charged to that branch of the city's business.

GOOD FRIDAY SERVICES.

The city yesterday assumed an air of Sabbath-like rest from business, all the shops being closed and very few offices being kept open. The perfect weather drew many out of doors.

The streams of church goers or promenaders on Jasper street made the main thoroughfare almost impassable in appearance throughout the day.

At All Saints' church there was a three-hour service in the afternoon, while at night Maunders' cantata, "Olivet to Calvary" was sung with fine effect by the choir of this church with Mr. Vernon Barford as conductor.

In the Catholic churches there were religious services three times during the day, with a sermon on "The Passion of Christ" in each church.

A partnership of registered architects and valuers has been formed between H. Alton Magoon, E. C. Hopkins and F. Leonard James. The office being kept open. The perfect weather drew many out of doors. Credit Foncier F.C. Building.

Mundane needs another elevator. The present gain is full and still there is a lot of wheat that cannot be marketed.

An appropriation of \$2,000 is asked for in the estimates brought down in the Saskatchewan Legislature to cover the cost of connecting Government House with the city water works, and two votes of \$1,000 are asked for to connect the jails at Regina and Prince Albert with their respective city water works.

RESCUED CHILD WITH DIFFICULTY.

Prince Albert, Sask., March 29.—A farmer named Cummins, of Crystal Plains, lost his home by fire a few days ago. The fire started in the upper part of the house and the family were at dinner when the flames burst down stairs into the living rooms. A baby sleeping in an adjoining room was rescued with difficulty. The house and contents were totally destroyed.

Duck Lake is in need of a lawyer, jeweler, brickmaker, etc., also a few more good buildings for business purposes.

Medicine. Hat's hotel accommodation is strained to its utmost to accommodate the crowds that are beginning to arrive.

ST. JAMES' HOLIDAYING.

Alberta College is closed until Tuesday, and a number of the students departed yesterday to their homes for the short vacation. Among the absentees are: Miss L. Plummer, Miss L. Tait, to Content; Miss Brown to Innisfail, Miss Stong, Miss Hall and Miss Anderson, to Wetaskiwin; Miss Finlay and Fred Cooper, to Medicine Hat; J. Terrellton, to Blackfalds, and C. Smith, J. E. Dixon and Joe Brumpton to Red Deer. Prof. Riddell is also out of town. He left for Calgary this morning.

Mr. J. W. Wang, the Chinese, provided organizer for the Loyal Orange association, is in Moose Jaw to make his headquarters for the balance of the year. He will be engaged in organization work throughout the whole province.

CALEDONIAN CLUB SOCIAL.

J. R. Hetherington, president of the Caledonian club, was chairman last night at a very successful social entertainment given by that club in the L. O. O. F. hall. Dancing was enjoyed throughout the evening, with intervals of songs and patriotic recitations. The Highland fling was danced in excellent style by Mr. Tom Craig, who also played on his bagpipes for the Scotch reels. Irvine's orchestra supplied music until an early hour.

Towelings

We have just received assortment of Towels and Toweling in Huck, Turkish, Terry, Crash, Glass and Linen, ranging from 10c to 15c per yard. Also a full line of made up towels, ranging from 15c to \$1.00 per pair.

British Columbia Amalgamated Coal
AT 15 CENTS PER SHARE

Why pay higher prices for the stock when you can
buy it from us in blocks of 100 shares or over at 15 cents
per share.

The British Columbia Amalgamated Coal Company
control over 17,000 acres of valuable coal land situated
in the well known Nicola Valley of British Columbia,
about 180 miles from the City of Vancouver, B.C.

More money has been made by investing in Coal
Stocks at low prices than from any other class of invest-
ments. It has made others rich, this may make you.

To those who are interested, and would like to se-
cure some of this stock at 15 cents, we would advise their
wiring us at once, stating the number of shares they
wish us to reserve, then remit by Bank Draft or Express
Order.

Write for booklet describing the Coal Fields of the
Nicola Coal District.

MONDAY, APRIL 1, 1907.

"LIBERAL" SUBSIDIES FOR THE PROVINCES

It will be recalled that a conference of Provincial Premiers was held in Ottawa last fall at which the question of the subsidies payable by the Dominion to the Provinces was the chief item of consideration. The Federal government virtually accepted the recommendations of the conference. This makes necessary an amendment to the subsidy clauses of the British North America Act. Sir Wilfrid Laurier has accordingly given notice of motion that an address be presented to His Majesty praying for such amendment and allowing the payment of subsidies on the following basis:

A. Instead of the amounts now paid the sums hereafter payable yearly by Canada to the several provinces for the support of their Governments and Legislatures, to be according to population, and as follows:—

(a) Where the population of the Province is under 150,000—\$100,000.

(b) Where the population of the Province is 150,000, but does not exceed 300,000—\$150,000.

(c) Where the population of the Province is 300,000, but does not exceed 450,000—\$200,000.

(d) Where the population of the Province is 450,000, but does not exceed 600,000—\$250,000.

(e) Where the population of the Province is 600,000, but does not exceed 750,000—\$300,000.

(f) Where the population of the Province exceeds 750,000—\$350,000. Instead of an annual grant per head of population now allowed, the annual payment hereafter to be at the same rate of eighty cents per head, but on the population of each province as ascertained from time to time by the last decennial census, until such population exceeds 3,000,000, and at the rate of sixty cents per head for so much of said population as may exceed 3,000,000.

C. An additional allowance to the extent of one hundred thousand dollars annually for ten years to the Province of British Columbia. Thereafter, therefore, the subsidies of a province will grow with its population and hence with the demands proportionately to the increase in population, allowing of course, a reasonable minimum below which the expenses of maintaining the provincial machinery could not be supposed to fall. On the other hand the larger the population of a province the larger the revenue which that population contributes to the Federal Government. So far as the provincial subsidies are concerned the Federal Government is simply the tax-collector for the provinces, returning in the form of subsidies to the provincial treasury what it has collected in revenue from the people of the province. It is fair therefore that as this revenue grows a larger amount should be returned to the provincial treasury the more so that the increase of population which yields the increase in revenue also increases the demands upon the provincial exchequer.

The dead-line is to be removed also and the provinces will hereafter receive per capita allowances on their actual respective populations, regardless of how largely these may increase. Hereafter there has been a limit of population upon which this allowance was payable and however such the population of a province might increase beyond this limit there was no corresponding increase in the grant. This meant in practice that so far from a steady and continuous increase in population being desirable, there was a point beyond which such increase became a positive detriment to a province's financial status, or while the increase brought of recently increased demands for expenditure, it did not bring the wherewithal to meet the expenditure. This limit it is now proposed to remove, and to grant the provinces subsidies proportioned to their needs, however great those needs may become.

The special grant to British Columbia was recommended by the conference in satisfaction of claims made by that province to special consideration on account of its large area and of the enormous expense of carrying on provincial public works in a mountainous country. This allowance, Premier McBride repudiated before the conference. If the desired amendment is granted by the Imperial parliament, it will be up to Mr. McBride to refund the money, and the people of British Columbia will

have the consolation of knowing that their Canadian Pacific premier is saving them \$100,000 per year more than his official salary.

LAURIER AND BOTHA.

Should it turn out that Sir Wilfrid Laurier and Gen. Louis Botha are governing a province increases per head in London next month, two of the most unique figures, both from their personalities and careers, and as examples of the broad and manly spirit that pervades the new imperialism will be missing.

They have points of resemblance. Their mother tongues is not the English and foreign to the king, they to whom they owe allegiance. Both are sons of a race the fortunes of war linked to the destiny of the Anglo-Breton race. Both are serving under a flag that was forced upon the forefathers of one and reluctantly adopted by those of the other. One, of French origin, is the foremost statesman in the greatest of England's colonies, and an ardent apostle of British institutions as set down in Magna Charta and the Bill of Rights. The other, Dutch born, won his fame fighting against the soldiers of the king. But his Dutch blood has cooled with the stilling of the noise of battle. Dutch prejudices have vanished before a childless avowal of loyalty when he tells the British nation, "Your king shall be my king, your flag my flag." That such men as Laurier and Botha should be called into conference on such matters of imperial concern and significance is the evidence of the wholesome imperial spirit that is at work and that the monarchy is one of the strongest of imperial ties. It shows that the king and his advisers have confidence in the representative men of the overseas Empire, whether British born or not, and should put to shame the ultra-loyalists who are wont to raise the cry of race or any other cry of a sectarian nature that may jeopardise the existence of the harmony and community of interest that knit the various parts of the Empire.
